## About us

Meteoric Cosmeceuticals Pvt Ltd (A Meteoric Biopharmaceuticals Group company) is incorporated with a vision of offering next generation cosmetic ingredients. Our USP is understanding the Skin Microbiome. We offer unique Enzymes, Bio actives, and Herbals ingredients for skincare. We are at advanced research stages and plan to offer Postbiotics that promote a balanced skin microbiome by nurturing beneficial bacteria in the form of Lysates, Ferments and Filtrates.

Each ingredient we offer is backed by thorough technical and research-oriented data. Our goal is to work closely with our clients to suggest unconventional and innovative cosmetic ingredients to achieve a competitive product line.

Our focus is to introduce biological ingredients for Skin Barrier, Hydration, Moisturization, Acne Control, Sun and UV Control, Anti-Aging and Spot Reduction.
